Case 7:21-cv-04763-NSR

RE: Motion to monitor and clarify
law regarding Confidential Correspondence.

(1) Comes now, plaintiff, and
motions the Honorable Court once
this case proceeds openly to issue
order upon the Center for Disease
Control to oversee the "mystery"
illness at the Federal Correctional
Facility located in Otisville. We
are currently in the midst of what
Assistant Health Service Administrator
Grove entitled "Round Two"
of this endemic. We recently ended
around ten (10) days of quarantine
and are in Unit EB now with
the affected Unit FA shut down.

Staff are still claiming to
not know what the cause is
but rumor is plenty.

(2) Plaintiff has motioned the court
before regarding the staff opening

and photocopying and reading his legal/special mail outside his presence. This continues without justification or explanation regardless of the ink stamp notifications on the envelopes. (See Enclosed).

Wherefore, Plaintiff requests the court order outside monitoring or intervention of the "mystery" illness that has continued due to staff's deliberate indifference to the problem and the severe itching suffered by inmates due to the indifference. Plaintiff also, again, motions the court to address and resolve the issue regarding the opening/copying of legal/special mail of Plaintiff by institutional staff.

Respectfully Submitted
